

Impaired is Impaired

Driving any vehicle, including ORVs, while you are impaired by **alcohol, cannabis or other drugs** is illegal and dangerous.

Whether you are on the road OR on the trail, drivers caught with a Blood Alcohol Concentration above the legal levels face the same consequences as those driving a car on the road:

- Roadside driver's licence suspension
- Roadside vehicle impoundment
- Fines and penalties
- Education and/or treatment programs
- Ignition interlock

Novice or Young Drivers (age 21 and under)

If caught with any amount of alcohol or the presence of cannabis in their system, face an **immediate** driver's licence suspension.

Huron County

Protect the Sport – Ride Respectfully

✔ Minimize Noise

Keep your vehicle properly tuned; do not rev your engine unnecessarily.

✔ Stay on the Road / Shoulder

Do not ride on sidewalks. Do not enter parks or cemeteries.

✔ Respect the Rights of Others

Never cross private or municipal land without permission.

Give Space; Pass Safe

When operating an ORV on a rural road at a speed of 50 km/h, you may need to pass people walking, cycling or using a horse and buggy.

Do not pass on the shoulder. Passing on the shoulder is illegal and dangerous.

✔ Wait until safe to pass on the left

Reduce your speed and follow at a safe distance until sightlines and traffic allow you to safely pass slower road users. Use proper signals to indicate your intention to change lanes.

✔ Give as much space as practical

Minimum one metre is the law for passing a cyclist; however more space is courteous. When encountering people using a horse and buggy, passing too closely could scare the horse, causing it to change direction suddenly on the roadway.

Required Paperwork

✔ Registration Permit

✔ Insurance (under motor vehicle liability policy)

✔ Licence Plate

✔ Driver's Licence

Required Equipment

✔ Motorcycle helmet

Operators and passengers must wear an approved motorcycle helmet **securely fastened under the chin** on every type of ORV.

✔ Lights

Must be on when ORV is used on-road.

✔ Seating

Original manufacturer seating only. A single-rider ATV that has been modified to carry a passenger by installing an after-market seat and footrest is **not** considered a two-up ATV and is illegal to transport passengers on the road.

✔ Seatbelts and footrests

Where seatbelts are provided by the manufacturer, they must be used. Passengers on two-up ATVs must be aged 8 or over and be able to reach the footrests.

Operating Your ORV

✔ Must be driven in **same direction** as traffic

✔ Must be driven on the **shoulder of the road**, when available

- If shoulder is unsafe, impassable or not wide enough so all tires can be completely on the shoulder, then the travelled portion of the road may be used.

Speed limits for ORVs

If posted speed limit is 50 km/h or less then **maximum speed is 20 km/h**.

If posted speed limit is more than 50 km/h then **maximum speed is 50 km/h**.
